Folks, how about Monday 3/19 from 1-230? Shawn, does that give you time to get some figures together and over to EPA?

Subject: Gunderson Riverbank

EPA comrades,

Shawn Rapp and I toured the Gunderson riverbank along Area 3 today. In follow up to our bankline discussion in January I'd like to reconvene a meeting to discuss some specific coordination we can agree to in order for us to sequence the remaining SC work, and future inwater RD/RA in a efficient and practical manner. There are issues of potential interim SC to discuss, as well as the sufficiency of the existing characterization in order for EPA to meet the needs of the future SMA cleanup plan.

I am thinking 1.5 hours. If you agree, I'll go ahead and set up a time either next week or the last week of March. I assume that Kristine would call in or we can time this around an existing meeting- just let me know.

Thanks!

Keith Johnson
